Get a feeling of the system by using it yourself.

- 3. Share your ideas.
Contribute to create a product you want to use.

- 4. Wrap up.
Conclusion and next steps.

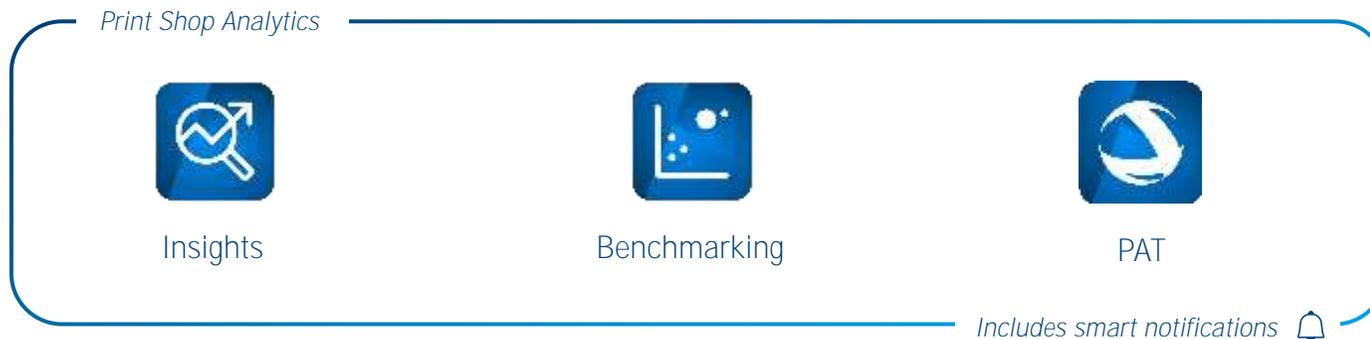

New in H+

Print Shop Analytics - Your Data Power Tool.

Data is an important key element for improving a company's performance. For the first time, all relevant data is merged into one solution and will be presented and interpreted real time in our new technology "Print Shop Analytics" on H+. This automated analysis will support you and your business with a holistic 360° overview of the printshop.

- ✓ Full transparency over performance parameters
- ✓ Artificial Intelligence-supported notifications and recommendations for action
- ✓ Available online at any time

Print Shop Analytics will combine the following Apps:

Print Shop Analytics Insights.

“ Insights uses important key figures from your production, evaluates them, and (re)interprets them at the same time. This analysis can be seen with just a few clicks on the modern dashboard of the app in the H+ Portal. With this information, not only can the current performance status of your production be shown, but problems can also be quickly identified and reported.

Print Shop Analytics Insights.

Agenda

1. Print Shop Analytics.

A brief look into the app Insights.

> 2. Get some Insights.

Get a feeling of the system by using it yourself.

3. Share your ideas.
