# New packaging solution

## Prinect Business Manager Packaging

In the following we would like to present you our MIS solution for the 3rd segment : **Packaging**

→What's the difference with **Commercial Print** or **Labels** MIS?

→**Packaging** with Prinect Business – What does it mean?

→**Integration** of Prinect Business Manager and Prinect Production

# What's the difference with Commercial Print or Labels MIS? Prinect Business Manager Packaging

- We will first show Commercial Print, then Labels and finally Packaging

- We use 3 colors for 3 of the Stakeholders

# Commercial Print, Labels and Packaging MIS

# Packaging with Prinect Business – What does it mean?

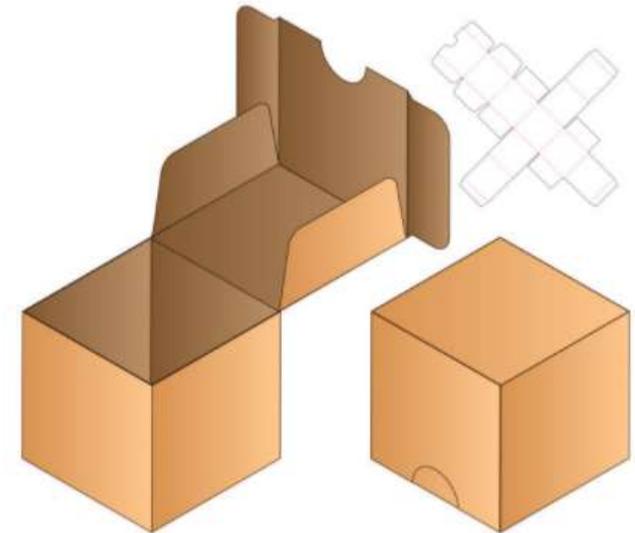

## Prinect Business Manager Packaging

In general **Commercial Print**, **Labels** and **Packaging** is one and the same platform – one MIS.

- One Prinect Business Manager solution - three possible segments are covered
- Packaging MIS is product based and no longer job oriented like Commercial Print is.  
Our solution is based on the existing Sheetfed-Label workflow and was extended with fundamentally new features.

### What are these new implemented features:

- Management of **shapes**
- Management of **die cut tools**
- Graphical workflow for **artwork**

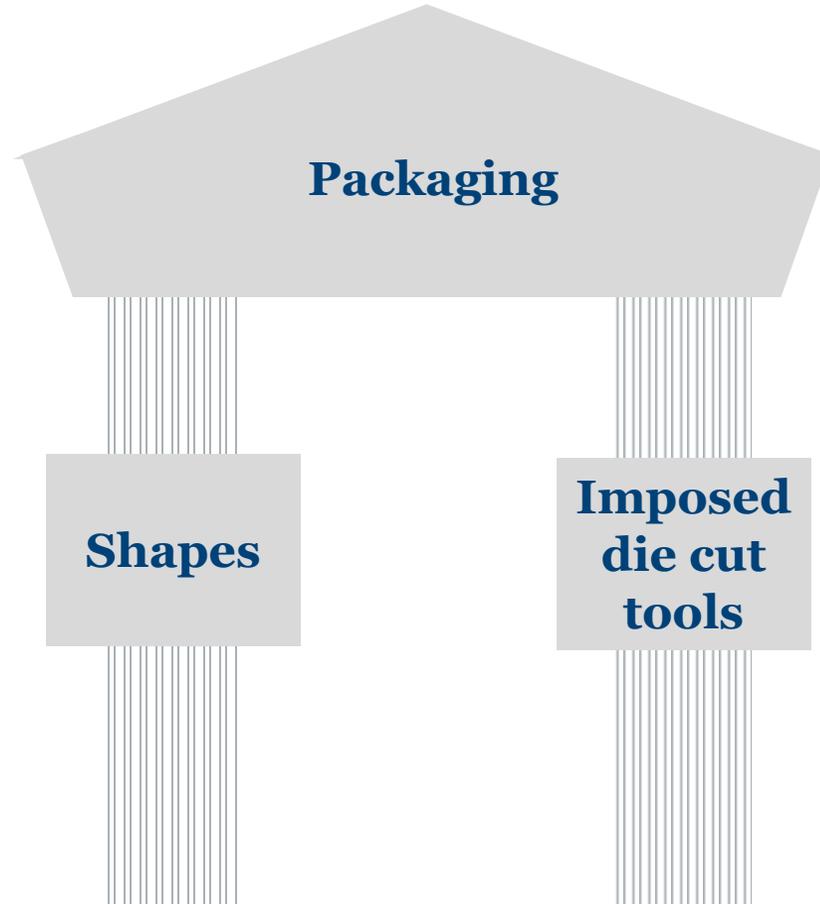

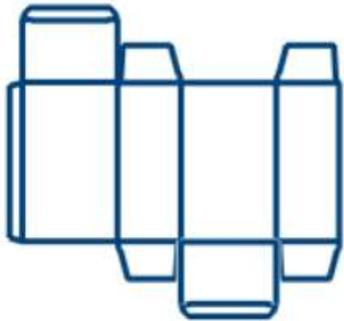

# Packaging with Prinect Business – What does it mean?

## Prinect Business Manager Packaging

### The 2 keystones of packaging:

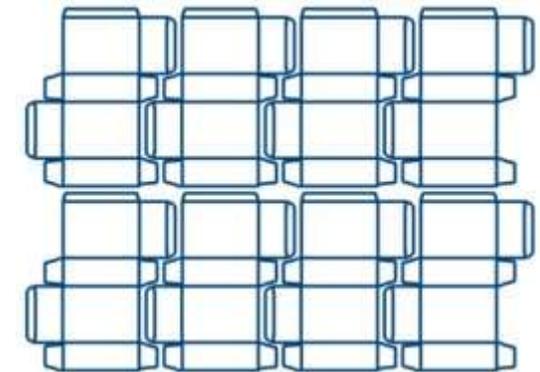

#### Shapes (1-up contour, cff2)

- Structural design  
ECMA, FEFCO, Engview
- 2 or 3 sizes (ABH)
- Grain direction
- Substrate

#### Imposed die cut tools (cff2)

- Multiple, different shapes
- Nesting, ganging
- Specific min. board size
