- **3.** New packaging solution Prinect Business Manager Pack

New packaging solution **Prinect Business Manager Packaging**

In the following we would like to give you a quick overview of our MIS solution for the 3rd segment : Packaging

→What's the difference with **Commercial Print** or **Labels** MIS?

→**Packaging** with Prinect Business – What does it mean?

→Integration of Prinect Business Manager and Prinect Production

What's the difference with Commercial Print or Labels MIS? Prinect Business Manager Packaging

PRINECT USER DAYS

Packaging with Prinect Business – What does it mean? **Prinect Business Manager Packaging**

In general **Commercial Print**, **Labels** and **Packaging** is one and the same platform – one MIS.

- \rightarrow One Prinect Business Manager solution three possible segments are covered
- → Packaging MIS is product based and no longer job oriented like Commercial Print is. Our solution is based on the existing Sheetfed-Label workflow and was extended with fundamentally new features.

What are these new implemented features:

- \rightarrow Management of **shapes**
- → Management of **die cut tools**
- → Graphical workflow for **artwork**

Packaging with Prinect Business – What does it mean? **Prinect Business Manager Packaging**

The 2 keystones of packaging:

Shapes (1-up contour, cff2)

- → Structural design ECMA, FEFCO, Engview
- \rightarrow 2 or 3 sizes (ABH)
- \rightarrow Grain direction
- \rightarrow Substrate

Imposed die cut tools (cff2)

- \rightarrow Multiple, different shapes
- \rightarrow Nesting, ganging
 - \rightarrow Specific min. board size
