Packaging and Label

- Extension for Packaging and Label features
- Including structural design

Less complexity with full flexibility. A pricing which is based on your needs.

- **Welcome to the Smart Print Shop** – Prinect Production gives you access to the full suite of production and automation functionalities enabling Push to Stop.
- **Always the perfect solution** – Of course one size does not fit all. To keep things simple we support you to determine the best solution for your actual requirements. If your needs change, you have the full flexibility to extend your system any time.
- **Complex, expensive license models are a thing of the past** – A transparent monthly usage fee that follows your production. The costs include a base fee and an additional charge based on the number of square meter TIFF's produced above the base level.
- **Safety your business deserves** – Prinect Production includes all updates and upgrades, which ensure that you not only have the latest version, but also the newest functionalities. And if you need support our hotline experts are available for you.

The Prinect Production subscription model in details.

Prinect Production subscription model. Requirements.

→ Contract

→ The software can be used as long as a active contract is in place

→ Cancellation policy

The minimum term of the agreement is 12 months. The customer has the right to terminate the usage agreement with 6 months' notice to the end of the month. Heidelberg has the right to terminate the agreement with appropriate notice, in particular when the monthly usage fee has not been paid, despite request for payment

→ The subscription approach requires a permanent internet connection!

Prinect Production subscription model. Functionalities and setup.

→ Prinect Production includes all current production products, modules and options but not the ...

→ **Business Manager**

→ Press modules

→ Data Center

→ Primefire/Labelfire DFE

→ Requirement: Microsoft database

The customer shall provide a license for the Microsoft SQL Express database for installation of the system. Alternatively, Heidelberg recommends for larger installations that customer purchases Prinect Data Center with the Microsoft SQL standard database

→ Necessary hardware is not included and must be purchased separately

Why subscription?

Prinect Production subscription model.

Why Prinect subscription?

- Holger Holzhauser, Production Manager of Nino Druck GmbH, Neustadt, Germany
- Challenges:
 - Integrated planning covering all processes
 - Automation of digital print jobs
 - Increase of Signa workplaces due to reorganization and expansion
 - More performance needed
 - Cover periodic peaks
- Installation of Production Manager in November 2016
- All requirements could be solved
- Statement „It feels like Prinect Production Manger has been designed for us“

Prinect Production subscription model.

More productivity. Less complexity.

- For new Prinect customers the Prinect Production Manager is the exclusive offering.
- Prinect user with maintenance contract can extend their systems as long as the contract stays active.
- Prinect user with maintenance contract can move to Prinect Production Manager.
- For Prinect users without maintenance contract the Prinect Production Manager is the new offering. This is also true for customers canceling their existing contracts in the future.
- Prinect users without a maintenance contract have time until summer 2019 to upgrade their system to the latest level and take the system under contract.
- As of summer 2019 Heidelberg does not offer to purchase upgrades to the latest level any longer. Upgrades are only available via contract either maintenance or subscription

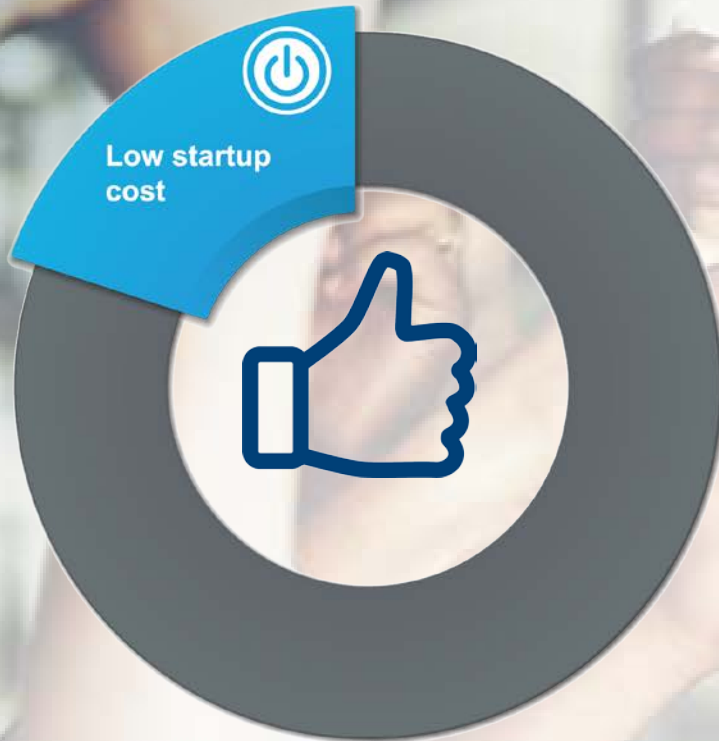

Prinect Production subscription model. More productivity. Less complexity.

- The extension of the workflow and entry into new functions has never been that easy
 - Integrated planning with Scheduler
 - Powerful approval workflow and Job Maker + Smart Automation with Prinect Portal
 - Shop Floor Data Collection
 - New screening technologies
 - Ganging
 - Connection of digital presses
 - Extension of the workflow with cockpits, Signa Station licenses, site-licenses
