Workshop: Beyond CAD design with Prinect Package Designer

Workshop Topics

1. Introduction of the presenters
2. Prinect Package designer
 - Resizable templates
 - Layout first cost estimation
3. Illustrator Connect
4. Automation in Cockpit
 - Automated job creation
 - Automated processing
5. Questions and Answers

The presenters presented

Simon Top

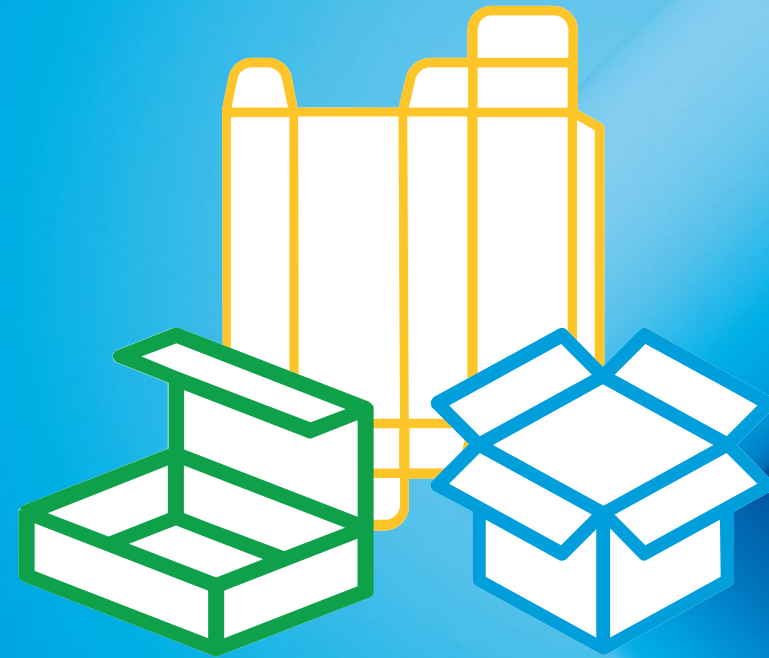

Janine Schneider

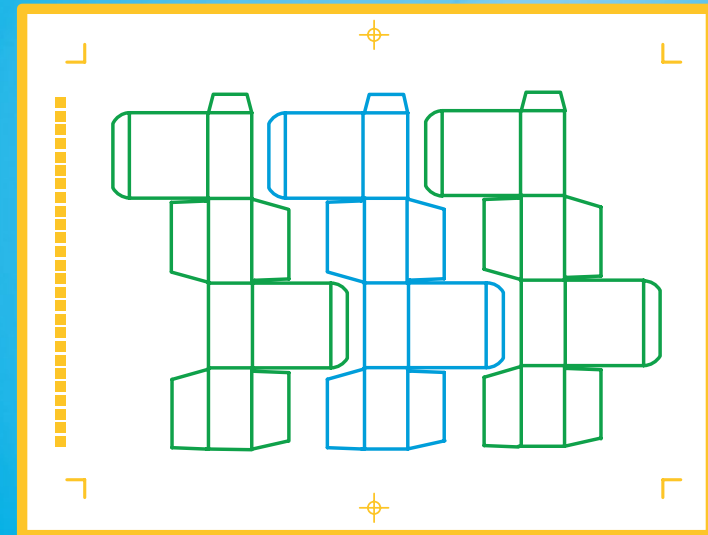

Resizable Templates – Prinect Package Designer

- Extensive Library with resizable templates.
- Easy access with Shortcut in toolbar. – NEW
- Simple adjustment of existing templates.

NEW Cost Estimator – Prinect Package Designer

- Can be customized with your costing values.
- Keep an eye on tooling cost early on.
- Allows to optimize layouts when still possible.

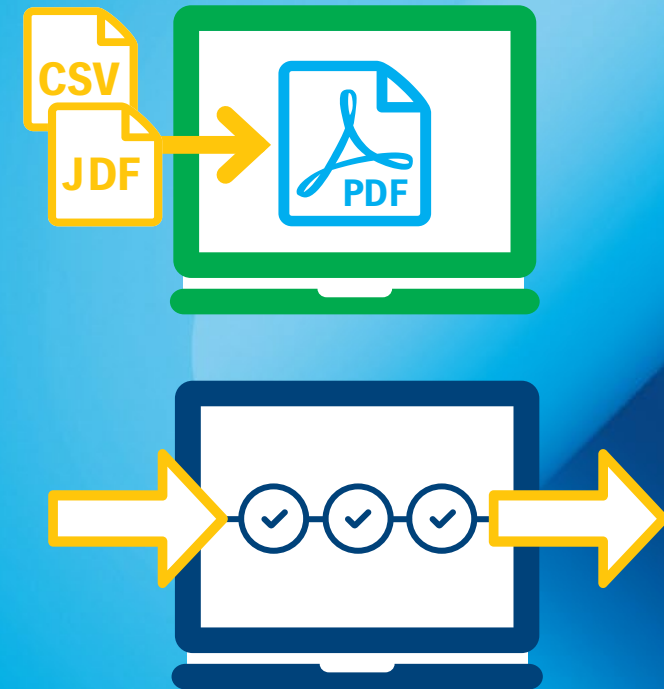

Illustrator Connect

- Easy handling of overlapping design elements.
- 2D and 3D visualization at once.
- Connecting graphic and structural design.

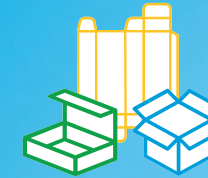

Prinect Cockpit

- Collects data from MIS and design applications
- Automatic job generation. (JDF + PDF)
- Automatic imposition and generation of CF2

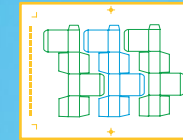

Recap Demo

1. Adjustment of a resizable template – Princt Package Designer

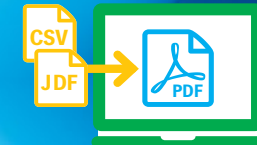

2. First cost estimation for the die-cutting tool – Princt Package Designer

3. Graphic elements for unconnected panels – Illustrator Connect

4. Generation of incoming job from a packaging MIS system – Princt Cockpit

5. Automated processing in Princt Cockpit to a finished print ready layout.

Thank you for attending.
